File \_\_\_\_\_

THIS MATTER comes before the Court on Defendants' Motion For a Stay of Execution of this Court's October 21, 1994 judgment awarding Plaintiff Western States Minerals Corporation ("Western") costs in the amount of \$46,217.25.

THE COURT, having reviewed all relevant pleadings, and being fully advised, hereby:

1. FINDS that on May 16, 1994, judgment entered for Western and against Defendants for specific performance, and on October 21, 1994, judgment entered awarding Western its costs;
2. FINDS that it is appropriate to allow Defendants to post a partial supersedeas bond relating only to the costs judgment which was entered in October, 1994;
3. FINDS that Western has inspected the \$45,000 letter of credit offered by Defendants as supersedeas bond for the costs judgment;

4. FINDS that Western has no objection to the proposed form of collateral for said supersedeas bond;

5. FINDS that no supersedeas bond has been posted with respect to the order and judgment for specific performance entered in May, 1994;

THE COURT ORDERS that execution on the costs judgment of October 21, 1994 is stayed pending final resolution of Defendants' appeal from such judgment. Western remains free to execute upon its specific performance judgment, as to which no bond has been posted and no stay entered.

DATED: Dec. 15, 1995.

BY THE COURT
